The Renault Trucks 'Reference' cover for preventive maintenance, ensuring that your vehicle is always legislation compliant and running to optimum standards.

At Renault Trucks we understand the challenges faced by owner-drivers and are here to help. The 'Reference' cover includes regular inspections of your vehicles. Our inspections are centred on finding any defects before they evolve into an issue that could impact your business such as an expensive repair or replacement part; this also helps to protect your O-license and ensures you maintain a good OCRS score.

With this cover the expenses are spread out equally over the contracted period so that costs are easily monitored.

PROTECT your O-License and OCRS score
